Multimedia artist with 4+ years of experience producing **visual content, motion and communication materials** for international brands. I work end to end — concept, design, animation, editing and post-production — with a solid 3D background and generative AI built into the creative process. I am now moving towards a more **graphic and visual-communication** role, with a particular interest in **sports**.

EXPERIENCE

Renders & Animation Specialist

May 2025 — Present

Keenfinity — Bosch · Electro-Voice · Dynacord · IQSight · Radionix

- Visual content and graphic assets for five group brands: campaigns, product launches, trade shows and digital communication.
- Animation and motion graphics for promotional video and social media, edited and finished in After Effects and Premiere Pro.
- Generative AI (Midjourney, Veo, ChatGPT, Claude) built into concepting, storyboarding and visual iteration, shortening approval cycles.
